

# JOB OFFER

## Laboratory Technician (Chemical and/or Textile)

Location: Maia - Portugal

Employment Type: Full Time

Industry: Textile solutions with chemical technologies

### Description

**Devan Chemicals** is a dynamic developer, manufacturer, and supplier of innovative sustainable (green) chemical solutions mainly for the textile industry. Devan has a solid track record in sustainability with a.o. probiotic and non-metal based antimicrobial solutions, a growing range of bio-based textile finishes including in Thermoregulation and Flame Retardants. Devan was founded in 1977 in Belgium and has offices in the US, UK & Portugal. Since July 1, 2021, Devan is a part of Pulcra Chemicals.

We are looking for a **talented & enthusiastic laboratory technician** to strengthen our team in **Maia – Portugal**. You will assist in making chemical formulations & applications to textile substrates and performing characteristics of textile substrates according to BU management definition priorities.

### Responsibilities

- Carry out the necessary quality control laboratory measurements (QC control) and ensure a proper reporting to Technical & Sales Managers
- Carry out laboratory applications and other related testing!
- Prepares chemical formulations to be applied onto textile fabrics
- Responsible for the receipt of samples for test and entry of associated data into laboratory database
- Enters test results into laboratory database, produces reports and communicates these results to Technical Manager
- Responsible for preparation of all reagents and materials used in testing
- Responsible for organization, cleanliness of lab and maintaining stocks of consumable materials
- Communicate with other Devan's laboratory teams, to ensure a proper alignment of work priorities

### Education, experience & skills

- Textile, chemistry or other scientific degree; or equivalent professional experience
- Good laboratory practices
- Knowledge of languages: EN (verbal and written)
- Computer knowledge
- Knowledge of functional textiles is a plus
- Proactive & hands on attitude
- Good organization skills, autonomous and result focused
- Enthusiastic to work in a textile/chemical laboratory environment.
- Good teamwork spirit

### We offer you the possibility to:

- Join an innovative & dynamic company with an eye for your unique talents & growth
- Enjoy flexibility (flexible working hours)
- Work in a stimulating environment driven by teamwork
- Get a competitive salary package including personal/team and organizational incentive plans, extra vacation days, commuting allowance, meal vouchers, a health insurance & pension plan after 1y of seniority,...
